

Charles Buyers

THE WALKING STICK COLLECTION

WHERE TRADITIONAL SKILLS MOVE WITH THE TIMES

Charles Buyers & Co. Ltd.

Charles Buyers & Co Ltd is a long established family business based in Irvine on the West Coast of Scotland,UK.

We specialise in the manufacture and distribution of walking sticks, umbrellas and giftware. This catalogue covers our wide range of sticks, umbrellas and accessories. It includes many new exclusive Charles Buyers designs. We sell to retailers and wholesalers throughout the UK and into several overseas markets. We carry large stocks in our warehouse and can despatch orders quickly and efficiently to anywhere in the world.

If you are an existing customer we hope that you will include some of our new products in your range. If you are a new customer we are sure that you will find that we offer one of the most comprehensive ranges of good quality sticks available at very competitive prices.

If you would like any help when ordering please contact our office where one of our friendly staff will be delighted to help you.

Making of our exclusive Charles Buyers pattern designs

Hand drawn sketch of each bird was created.

Using the same technique, a backdrop is designed.

The drawings are then digitalised.

The digital outline was then coloured.

The elements are arranged into a backdrop.

All the drawings and design are brought together, experimenting with different colour ways until a finalised pattern and colour scheme is agreed upon.

CELTIC COLLAR

Wooden Crutch & Derby Sticks

Our Wooden Walking Sticks are approx. 36" in length. They can be cut down to the correct length by the customer. We offer a great selection of finishes in both crutch and derby style handles. The derby handle was named after Lord Derby. The classic contours allow it to be hung over the wrist, leaving the hands free. The most popular wood used is beech with a variety of stained and painted finishes.

Economy Sticks

Our Economy Wooden Stick range are great value, very sturdy, and made to an extremely high standard. Handcrafted from beech wood. We offer this range in both crutch and derby style handles.

Flipsticks

Flipsticks are manufactured in the UK. Your Flipstick will allow you to travel anywhere, attend events and spend time out with the family without having to worry about seating. Flipstick is a true icon of British manufacturing, steeped in history, a brand that boasts almost 35 years of tradition and expertise. Available in fixed, adjustable and folding.

SF21 spiked ferrule for Flipsticks making it more secure on soft ground. See page 62

Governed by the 1993 Harris Tweed Act of Parliament, which safeguards the fabric, recognised by the distinctive Orb stamp, the artisan manufacturing process is protected and cannot be undertaken anywhere beyond the Outer Hebrides.

Suitable for walking sticks and umbrellas. Holds 25 walking sticks & 8 folding sticks on hooks.

WSS2
COMBINATION STAND

Suitable for walking sticks, umbrellas, and accessories. Holds 18 walking sticks in a rack on one side, approximately 36 folding sticks on hooks and has a ferrule basket at the bottom.

A Guide to Walking Sticks

Walking sticks or canes have been used and collected for centuries.

Today the most popular sticks are folding and adjustable walking sticks. Made from strong and lightweight aluminium they conveniently fold away and are available in many different patterns and colours to suit all tastes.

The traditional hand crafted natural wooden sticks are ideal for walks in the country, while our dress and collectors sticks are great for formal occasions or evenings. The wooden derby and crutch handled walking sticks combine both function and elegance and are ideal every day sticks.

Charles Buyers Wooden Walking Sticks

The majority of our wooden walking sticks are 36" in height. These can be cut down to the correct size by the customer and then simply refit the ferrule. The most common wood used for our turned wooden sticks is beech wood with different stains, colours and patterns applied to give the final finish. The natural wooden sticks most commonly chestnut, ash and hazel are grown until they have reach the desired length and cut by hand as such no two are the same.

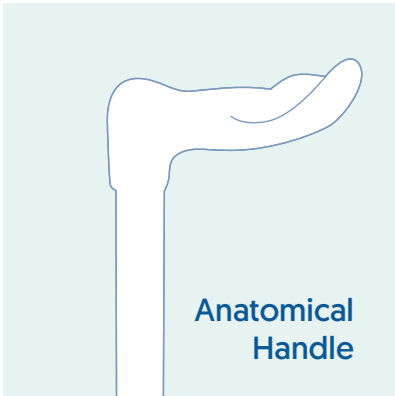

Handle Types

The most popular handle named after Lord Derby.

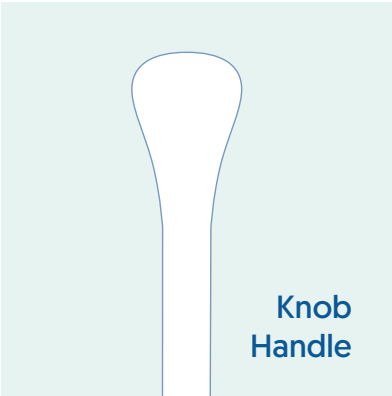

The thumb hooks through the v, most common on country hiking sticks.

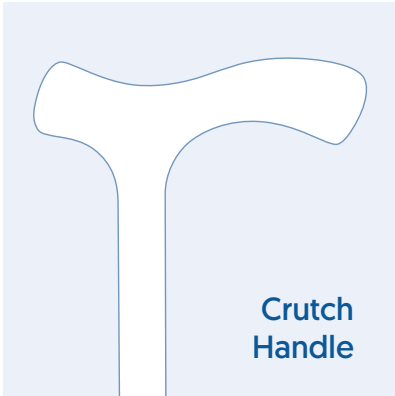

Natural, comfortable and reassuring grip and reduces stress on the hand.

Traditional shape and hooks onto your arm leaving hands free.

The palm of your hand sits comfortably while walking.

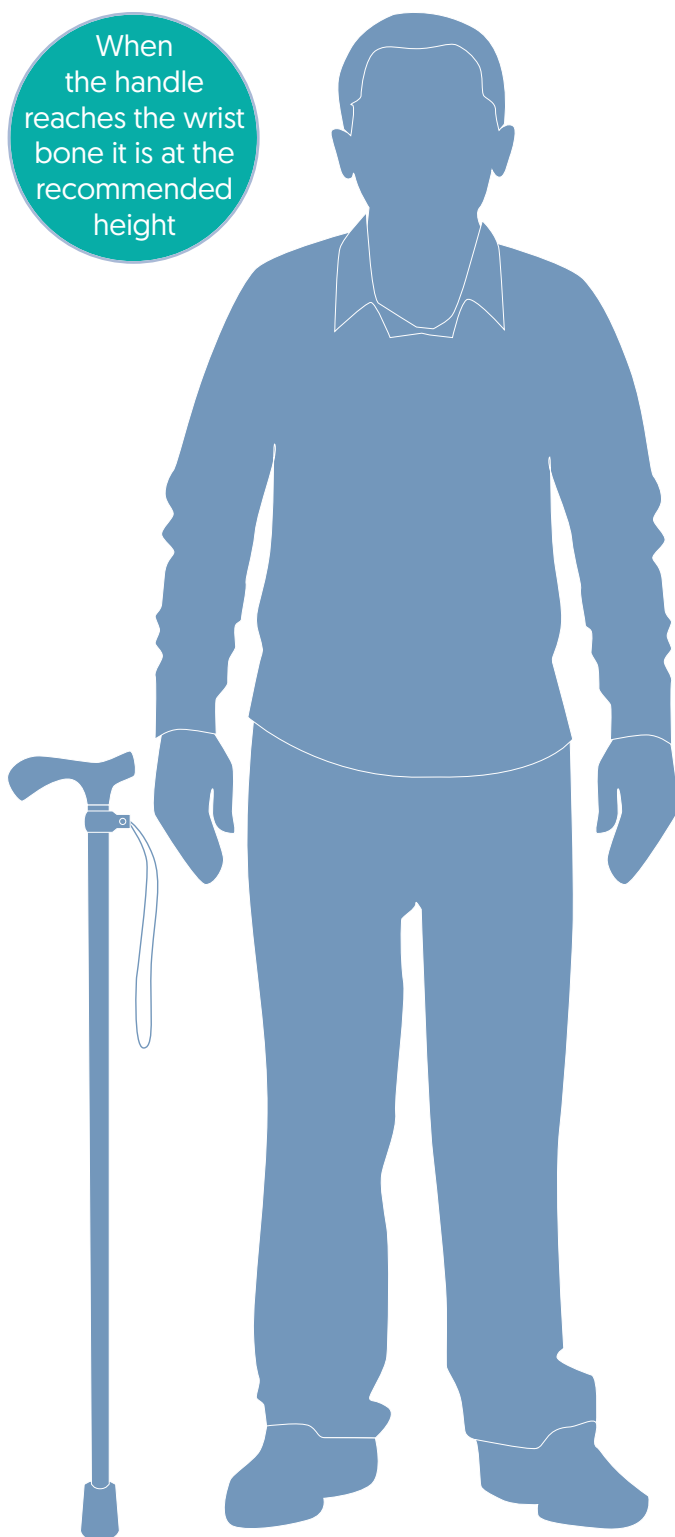

Simple design yet comfortable to hold.

How to use Charles Buyers adjustable and folding sticks

Ideal Stick Height

Standing with your arms at your side in a relaxed position. The walking stick handle should reach the wrist bone. Measure from the ground to this point and adjust the stick height accordingly.

When the handle reaches the wrist bone it is at the recommended height

Functional & foldable

a Charles Buyers folding walking stick easily folds away and simply adjusts to the correct length.

To Adjust Height

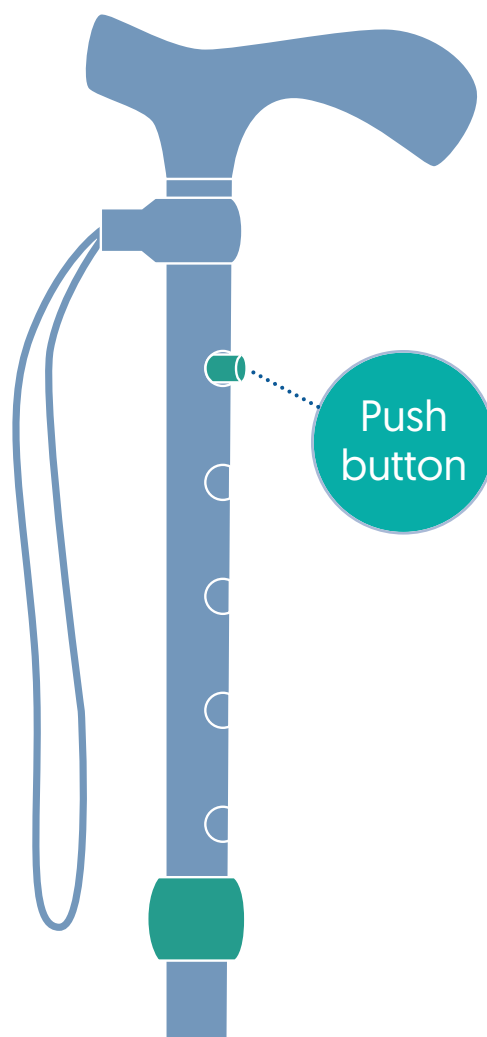

Unscrew locking mechanism turning clockwise.

Set to required height using push button and adjust length.

Tighten locking mechanism turning anti-clockwise.

To Fold

Pull sections apart from bottom to top in zig zag motion.
